**RE: Letter of Support – Recovery Transportation**

Dear Sonoma Community Foundation:

Center Point Drug Abuse Alternatives Center (CP DAAC) supports Recovery Transportation in their proposal to you for funding for their transportation services.

Many of the clients we serve do not have their own transportation nor do they have a valid driver's license due to homelessness, legal issues, and substance use disorder issues. We do our best to access county services for bus tickets, however, there are not enough to go around for all the appointments this vulnerable population needs. Our clients need to access many services, dental appointments, job link, medical appointments, DMV for an ID, or Driver's License, to name a few. Many of our clients do not have a vehicle, and do not have family that can transport them to these various appointments. This services is something that these clients can access that would enable them to accomplish many of the goals they set out to achieve.

This letter stands as evidence that Center Point DAAC will support, to the extent possible, Recovery Transportation Services, by referring clients to them for this service and helping them to track the use data of this much needed service. We believe this services will enable these clients to access all the services they need during their recovery process. Thank you for your consideration of their proposal.

Sincerely,

Susan Hertel, BA, SUDCC III  
Regional Director
